

PROJECT INFORMATION

Main Street Decorative Lighting and Sidewalk Enhancement Project

Main Street & 6th Ave Intersection:

The intersection of Main Street and 6th Ave will be closed to vehicle traffic beginning on October 25th and continuing through November 16th. The closure will be in place around the clock. Pedestrian access across the intersection is a priority and will be maintained during the closure.

The closure will allow the contractor to remove existing concrete pavement in the intersection and rebuild it with the planned utility and streetscape improvements. The closure also allows the intersection to be reconstructed efficiently and in the shortest period of time.

Main Street between 5th Ave and 6th Ave

The first of two layers of asphalt pavement is scheduled to be placed on Main Street, between 5th and 6th Avenues, on Monday, October 29th (weather permitting). The first layer of street pavement will provide a path for pedestrians to access businesses during the removal of the remaining sidewalks and placement of the new sidewalks on Main St.

The City would like to thank you for your continued patience.

If you have questions about the project, please contact Pam Lemcke or Rob English at (425) 771-0220.
